# RAM Console Leg Kits

National Products, Inc.

**Police and SSV Console Leg Kit**  
CHEVROLET SUBURBAN (2013-2015)  
CHEVROLET TAHOE (2013-2015)  
GMC YUKON/YUKON XL (2013-2015)

## SPECIFICATIONS

### Drilling Requirements:

For some vehicles, drilling may be required. See vehicle specific kits for No-Drill™ applications and universal for all others.

### Finish:

Black Powder Coating

### Placement:

Over transmission hump

### Note:

In later model vehicles, some of the vinyl floor covering may need to be cut and removed to expose mounting hardware.

## INSTALLATION REQUIREMENTS

The area between the front seats must be accessible in order to mount the leg kits and top plates to support a console.

The area must be open between bucket seats or, if the vehicle has a 40/20/40 front bench seat or similar configuration, the center section must be removed.

If the vehicle has a floor mounted shifter, either automatic, manual, or 4x4 lever, make sure there is ample room to the rear of the shifter and the floor board is clear before making a RAM-VC-LEG kit selection. The installed RAM-VC-LEG kit should be installed in a manner that does not interfere with the operation of shifters or levers.

For some vehicles, there may be room between the center of the bench seat front and the dash of the vehicle. If removing the center section of the bench seat is not an option, but there is room at this location, consider the universal leg kit, short top plate, and short console box as a possible solution.

**If the vehicle is equipped with a factory installed center console, make sure it can be removed without :**

1. Permanently disabling the vehicle.
2. Exposing sensitive electrical equipment to harm.
3. Exposing mechanical systems to harm.
4. Interfering with factory installed safety equipment.

Some factory installed equipment and consoles cannot be removed. If this is the case for your vehicle, consider other RAM products designed for mounting electronics safely and securely in your vehicle.

### **INSTALLATION INSTRUCTIONS**

The purpose of this instruction sheet is to illustrate the manufacturer's recommended method of installation for the RAM-VC-LEG-116 Leg Kit that includes anchor legs and a bagged hardware kit. Please completely read these instructions before beginning installation. Take note of duct work and wiring under seats before beginning work. Use caution when moving seat during installation..

1. If not already done, remove the center "20" seat section or console.
2. Using the mounting points of the now removed center seat section, attach the 4 provided console mounting legs. If your vehicle came without this center seat section, it may be necessary to expose the mounting points by using a cutting tool and removing the vinyl covering the mounting holes.
3. With the console legs installed, place the console top plate over the legs and secure using the hardware provided.

---

#### **Disclaimer regarding mounting of product:**

National Products Inc. and/or RAM Mounting Systems is not liable under any theory of contract or tort law for any loss, damage, personal injury, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicles or any other application. In order to safely install and use RAM Mounting System or National Products Inc. products full consideration of vehicle occupants, vehicle systems (i.e. the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. RAM Mounting Systems and National Products Inc. specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufacturers specifications and recommendations.
