

RAM® Tough-Mag™ Magnetic Bases

Ideal for mounting to a metal surface, the RAM® Tough-Mag™ is available in two different sizes: 66mm and 88mm in diameter. The 66mm version is available with a B size ball screwed into a 1/4-20" threaded post, and the 88mm version is available with a C size ball. These bases feature an industrial-strength N35 grade magnet and rubber coating that protects the metal surface the RAM® Tough-Mag™ is being attached to.

Features:

- Industrial strength N35 grade magnets
- Rubber coated to protect metal attachment surface
- 1/4-20 threaded post accommodates RAM® B and C size balls
- Backed by a lifetime warranty
- 88mm base contains 12 magnets; 66mm base contains 6 magnets
