

mUSB GDS® Vehicle-Dock™ for IntelliSkin® Next Gen Tablets

The mUSB locking vehicle dock for IntelliSkin® Next Generation features GDS® Technology™ to enable data sync and charging capabilities on the go. This spring-loaded, quick release cradle features a keyed lock that offers a secure fit with easy access to your mounted tablet. A bottom dock cup includes GDS® pogo pins and a mUSB pigtail. Without the need to remove your IntelliSkin® Next Generation sleeve from the device, efficiently mount the tablet in the vehicle dock to keep your tablet charged and locked in place. This dock is designed to meet the demands of field workers in a variety of applications, including transportation, field sales, logistics, manufacturing, and much more.
