

IntelliSkin® for Samsung Galaxy XCover Pro

IntelliSkin® is a protective sleeve featuring GDS® Technology™ with military-grade drop protection for the Samsung Galaxy XCover Pro. The IntelliSkin® sleeve's integrated GDS® connector is molded directly into the skin, preventing damage to your device's charging port from repetitious docking. Molded ruggedized docking contacts on the exterior of the skin are also designed for repetitive docking in field applications. This version of IntelliSkin® is compatible with a variety of USB Type-C GDS® Docks™ and accessories that allow for charging and data syncing.

Compatible Devices:

Samsung Galaxy XCover Pro (SM)-G715FN

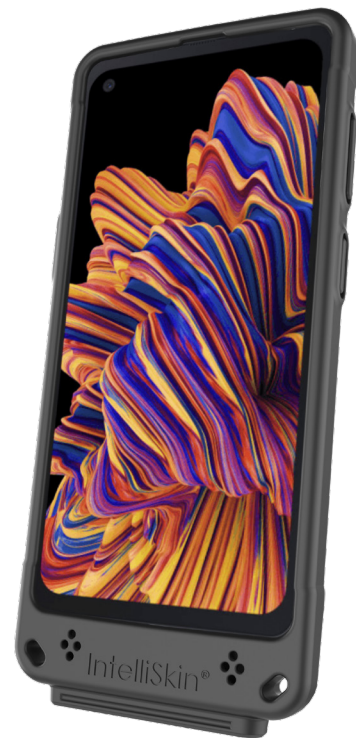

RAM-GDS-SKIN-SAM59

Features:

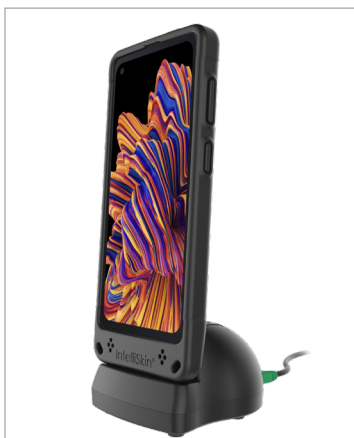

- Protective sleeve features GDS® Technology™ and military-grade drop protection
